Exports Division

Premium agricultural exports to international markets. Collaborative producer relationships, traceability commitment, and compliance expertise.

- Rooibos Tea
- Honeybush Tea
- Macadamia Nuts
- Custom packaging & private labelling

Sugarcane Division

Sustainable sugarcane cultivation in KwaZulu-Natal, supplying raw cane to South Africa's sugar mills.

- SASRI-aligned farming practices
- Sugar, ethanol, and bio-energy value chain
- Water conservation & IPM
- Community employment programmes

Our Product Portfolio

Rooibos Tea

Uniquely South African, caffeine-free, antioxidant-rich. Sourced from premium growing regions. Growing global demand, especially in EU, Japan, and USA.

SOUTH AFRICA

Honeybush Tea

Naturally sweet herbal tea from fynbos biome. Low tannins, rich polyphenols. Rising demand in health-conscious global markets.

SOUTH AFRICA

Macadamia Nuts

SA is world's largest producer. Premium kernel grades for China, USA, EU markets. Raw, roasted, and value-added options.

SOUTH AFRICA

Market Opportunity

The global specialty tea market is projected to grow at 6.2% CAGR through 2030, with rooibos and honeybush positioned as premium health teas. South African macadamia exports have increased by over 30% in the past five years, driven by Chinese and US demand.

ShellNest is positioned to capture this growth by combining collaborative producer relationships, certified quality partnerships, and export compliance knowledge. Our lean operating model allows competitive pricing while maintaining premium quality.

Competitive Advantages

Direct relationships: Building directly with farming communities means better farm-gate prices and verified provenance. Our buyers know exactly where their products come from.

Compliance expertise: We navigate EU, US FDA, UK DEFRA, and Asian import regulations, removing barriers for first-time buyers.

Flexible supply: From sample orders to FCL container loads, we serve boutique importers and large-scale distributors alike.

Sugarcane Industry Context

KwaZulu-Natal produces over 80% of South Africa's sugarcane. The industry contributes approximately R14 billion to the national economy and supports 65,000 direct jobs. ShellNest's sugarcane operation contributes to this value chain while demonstrating that emerging farmers can operate at commercial scale. Beyond raw sugar, diversification into ethanol, co-generated electricity, and speciality sugars presents significant additional revenue opportunities.

Growth Strategy

ShellNest's growth strategy focuses on deepening market penetration, expanding product lines, and building sustainable farming capacity.

Short-Term (0-12 Months)

- Establish initial export contracts in EU and UK
- Secure HACCP certification for processing partner
- Launch website and digital presence
- Complete first commercial sugarcane harvest

Medium-Term (1-3 Years)

- Expand into US, China, Japan, and South Korea
- Private labelling service for boutique buyers
- Organic certification on key product lines
- Value-added products (flavoured rooibos, roasted macadamia)

Long-Term Vision (3-5 Years)

- Recognised SA export brand in specialty food
- Establish in-house processing facility
- Direct-to-consumer e-commerce channel
- Expand sugarcane to multiple farm units

Sustainability Goals

- 100% traceable supply chain by 2028
- Carbon footprint measurement and reduction
- Fair trade certification for all product lines
- Water stewardship in KZN sugarcane operation

Revenue Model

Exports Division: B2B sales of bulk agricultural commodities to importers, distributors, and food manufacturers. Margin enhanced through private labelling and value-added processing.

Sugarcane Division: Revenue from raw cane delivered to contracted sugar mills under SASA division of proceeds. Additional income from by-products (molasses, bagasse).

Key Partnerships

Farming: Direct relationships with verified farms in key agricultural provinces across South Africa.

Processing: HACCP-certified processing and packaging facilities.

Logistics: Freight partners through Durban and Cape Town ports.

Industry: SASA, SASRI, Wesgro, trade promotion agencies.

> ***"ShellNest represents the next generation of South African agricultural enterprise -- commercially ambitious, ethically grounded, and globally connected."***
